

FOODLE

Start Your University Life with Something Sustainable

In the UK, 35% of our CO2 emissions are associated with food production, 23% of which comes from food waste. Furthermore, 83% of all our household plastic waste comes from food and drink packaging. Foodle aims to reduce these through Group Cooking and Environmentally Friendly Recipes.

Features include: A Daily Game, Creative and Delicious Recipes, Recipe Creation, Leaderboards for Sustainable Recipes and Daily Game, Organisable Group Cooking Events and so much more
